

California Department of Fish and Game Seasonal Job Bulletin

Position: Scientific Aid

Program: Water Branch

Location: Sacramento

Final Filing Date: Until Filled

Contact: Jason Roeh (916) 445-0629

Job Description:

The Department of Fish and Game's Water Branch is seeking to fill a Scientific Aid position in the Ecosystem Restoration Program. As a member of the Water Branch, the Scientific Aid will assist in a broad range of technical biological work which focuses on a variety of research and management programs relating to resource conservation, management, and restoration; this will include the need to manipulate and archive a variety of electronic files and other data existing in a variety of formats. The incumbent will assist in continually updating grant, contract, and interagency agreement information for the Ecosystem Restoration Program.

Additional duties include: conducting literature searches; and performing various tasks on computer systems including spreadsheet, database, and word processing functions. The incumbent may also prepare and/or assist in the preparation of scientific reports, and may assist Program staff in field surveys for performance monitoring.

Minimum Qualifications:

Must possess a valid California driver's license, Class C.

Education equivalent to completion of two years of college with a minimum of 10 semester hours in science (transcript required) OR one year of equivalent work experience in surveying, studying or evaluating fish or wildlife populations, data, habitats, or other related working experience.

How to Apply: Send a Standard State Employment Application (Form 678) by mail to Jason Roeh, California Department of Fish & Game, Water Branch, 830 S Street, Sacramento, CA 95814. List position number on your application under Job Title(s) for which you are applying.

We are an Equal Opportunity Employer offering equal opportunity to all regardless of sex, race, religion, ancestry, disability, or sexual orientation.
